Note: Part numbers in parentheses (see Page 1).

I. <u>INSTALLATION</u>

1. Secure the tool or piece of equipment to be mounted into the SURE-GRIP XL Assembly and Mount (7). Place in the compartment where desired. Position SURE-GRIP XL to provide adequate support for length and weight of tool. Mark locations.

2. Fasten the Mount to the shelf using 1/4" hardware (not supplied).

3. Attach SURE-GRIP XL Base (1) to the mounting surface using truss head screws, 1/4" nuts, and and 1/4" washers (hardware not supplied).
.

II. <u>SECURING THE TOOL</u>

1. Rest the bottom of the tool or piece of equipment in the Mount (7).

2. Place the Strap (3) over the tool. Wrap it around the oval-shaped post from the side (see above).

3. While maintaining tension on the strap, pull away from the Base (1) to tighten, then connect the hook pad and the loop pad to secure.

III. <u>REMOVING THE TOOL</u>

1. Grab the end of the strap at the red tab and pull away from the Base (1) to release the hook & loop connection.

2. Pull the tool towards you, through the loosened strap. Strap will free itself as you pull.

3. Lift tool out of the Mount (7).

Notes:
